Year 3 students will do a mixture of courses and practical experience  Students must enrol in 60 credits per semester. (Typically, three 20-credit courses) Exceptions: Students who are required to take a particular course the only option being of 10 credits. This results in the student choosing an underload (minimum 50 credits) or an overload (maximum 70 credits). Students who are completing a dissertation or other formal work for their home institution: this requires written confirmation of this study from their home university. There are no further exceptions that would result in an underload or overload of credits.
